- Web Development, Operating Systems, IT Security.
- Attended Mfantshipim Secondary School in 2015 and completed in 2018.
- 3 years of Experience in the field
- Work with a remote company as a software designer

## PROJECTS

- Project: Door hub  
Description: Developed a mobile application where users can book an appointment with any handyman services nearby in the comfort of their homes. Implemented user authentication, and scheduling functionality. Technologies: Flutter, Firebase
- Project: Bus Ticketing app  
Description: Developing a bus ticketing mobile application where users book bus tickets from transport services and see the live location of the movement of buses booked. Implemented user authentication, live location, and scheduling functionality. Technologies: Flutter, Firebase
- Project: Payroll Management System  
Description: Developing a payroll using Flutter and Supabase console to facilitate the easy distribution of workers' payrolls in an organization. Implemented user authentication, workers' earnings and deductions details entry, and generation of payment slips.
- Project: School Management System  
Description: Developing a desktop application using Flutter and Supabase console. Implemented user authentication, student performance tracking, and record-keeping functionality.
- Project: Flutter Language Translator App  
Description: Developed a mobile application where users can translate their text into any desired language of their choice. Implement user audio speech to text, and text recognition from images using third-party packages.
- Project: Elearning Website

Description: Developing an eLearning website using React where users can get access to various courses to learn from and purchase to get access. Implemented user authentication, payment system, share links, location, creating courses, and Zoom implementation.

## EXPERIENCE

---

### Software Developer

VisionCloudit, Accra, Ghana | Jan 2023 – Present

- Collaborated with cross-functional teams to deliver projects on time and within budget.
- Implemented unit and integration testing, ensuring code quality and reliability.
- Provided support and troubleshooting for existing software solutions.

### Teaching Assistant

Bedeku Technical Institute, Ada, Ghana | Nov 2022 – Nov 2023

- Assisted in teaching Core Mathematics courses on Indices, Algebraic expression, Set, and Surd to a class of 50 students.
- Conducted daily assessments to provide experience and help students with exercises.
- Graded assignments, quizzes, and exams, providing constructive feedback to students to help them improve.
- Held office hours to offer additional support and answer students' questions about course materials.
- Developed and maintained course materials such as lecture notes and exercises.
- Collaborated with the course instructor to design course content and assessments.
